

Man, what a magnificent schooner the Corsair is...we spent an overcast afternoon on a supper cruise which will always be in our memories...each cruise is limited to 6 guests, so we had it to ourselves to enjoy, along with the very personable crew...the Corsair was built in the style of Cajun shrimping schooners by its Captain, Mike Broussard...the cruises are a new addition to the Corsair's interesting 30 year history...it was used in the Tom Cruise movie "Interview with a Vampire" and also featured in the grand opening commercials for the Beau Rivage Casino...our supper was caught as we cruised the bays of Orange Beach and we were stuffed afterward!!! What a wonderful time!!!

Cruising the Bays

on the

Schooner

CORSAIR

JR, his family,
and I spent an
incredible
afternoon aboard
the truly majestic
Corsair...imagine
our awe as this
beautiful vessel
arrived to meet us!

NAUTICAL MILES

The Corsair was met with enthusiastic 'thumbs up's from folks on the shore as we left Pirate's Cove...it demands attention!

Snacks were waiting for us on deck...such welcoming hospitality! Dinner would be caught and prepared as we relaxed...

Soon the net was dropped to catch our dinner...

Captain Mike Broussard & Roselee were our gracious hosts...Mike began construction of the Corsair in 1976...

We quickly felt at home with their easy going hospitality...

and I had a turn behind the wheel...

We checked out
each troll's haul...
we'd have plenty
of shrimp...

Time for the fresh caught feast...

Males - Inshore navigation in the eastern half
of Anguilla should be undertaken only

NAUTICAL MILES

Our cruise on the Corsair was awesome!!!
